REPORT OF THE PRESIDENT

To the Members of the Mount Sinai Training School for Nurses:

LADIES AND GENTLEMEN.—In submitting to you the report of the work accomplished by the Mt. Sinai Training School for Nurses during the years 1904 and 1905, I am glad to pronounce the condition of our Institution satisfactory in every detail.

Since the last general meeting held on May 31st, 1904 a number of innovations and improvements have been instituted, and our School to-day occupies a conspicuous position among the leading institutions of its kind in our great metropolis.

The number of nurses in training is steadily increasing and we trust that the time is not far off when we will be able to supply all the nurses required for the service in the Mount Sinai Hospital.

Our parent institution, the Mount Sinai Hospital, where our nurses receive their practical training, affords exceptional advantages for the education of nurses, being the largest private institution of its kind in this country and having a capacity of 500 patients, including a great variety of services, such as medical, surgical, gynecological, aural, ophthalmic, dermatological, neurological, as well as a private pavilion with a capacity of fifty patients, all of which gives our pupils opportunities for varied and thorough experience.

The number of pupil nurses in our School on January 1st, 1906 was 87; since that time a large number of probationers have been accepted, so that over 100 pupils are inmates of our School to-day. There were graduated in the class of 1904 nine pupils, and in the class of 1905, 26 pupils received their diplomas.

Applications for admission to the Training School during the year 1904 numbered 447, and during the year 1905, 565. In 1904 thirty probationers were received, of whom 18 proved unsatisfactory and three resigned voluntarily. In 1905 sixty-one

probationers were received, thirty-two of whom were dropped during the year and three of whom resigned.

Our registry supplied 1267 nurses for private cases during the year 1904, and in 1905 - 1585 calls for nurses were answered from our registry. It is a well known fact that our graduates are in steady demand not only by physicians connected with the Mount Sinai Hospital, but also by outside physicians, for our nurses are well recognized in the community for their efficiency and ability.

The meetings of the Alumnæ, which are now being held in our parlors, are particularly helpful in bringing the graduates back to their Alma Mater, and tend to promote fellowship and loyalty.

REGISTRATION OF TRAINING SCHOOLS:

In order to raise the Training Schools to a higher standard, a law was passed in the Senate of the State of New York in 1903, entitled "An act to amend the public health law relative to the practice of nursing". Under this law any resident of the State of New York holding a diploma from a training school for nurses connected with a hospital giving a course of at least two years and registered by the Regents of the University of the State of New York, who shall have received from said Regents a certificate of his or her qualification to practice as a registered nurse, shall be styled and known as "Registered Nurse", and no other person shall assume such title or use the abbreviation "R. N." or any other words to indicate that the person using the same is such a registered nurse. In accordance therewith our Training School applied for registration, and we have now in our possession a certificate from the Regents of the University of the State of New York classifying our school as a duly registered institution.

FINANCES.

The question of financial support has engaged the attention of our Board to a very large extent. With the increased facilities of our School, the expenses become larger and larger and unfortunately we have been compelled for several years to close

our books on Dec. 31st with a deficit. In 1905 our cash balance on hand amounted to \$205.42 with an indebtedness to the Treasurer for the sum of \$4200., which in other words means a deficit of close to \$4,000. Ways and means must be found to overcome this great difficulty. As a step in this direction our Directors at a recent meeting changed our By-Laws by creating a new class of membership called "Patrons", the annual dues of whom are \$25. We now have two classes of membership, Members at \$10. per annum and Patrons at \$25. per annum. Within a short time we shall issue a circular letter to our friends asking them to change their contributions from \$10. to \$25. I trust that this appeal will receive favorable consideration, so that we may be able to meet our obligations.

During the past two years we have received the following cash donations:

1904.

March 5th	Mr. Isaac Stern.....	\$175.
April 11th	Mrs. Henrietta Stermberger	
	In Memory of April 11th.....	10.
June 8th	Mr. Isaac Stern.....	175.
July 13th	Anonymous.....	10.
July 13th	Mr. A. I. Elkus.....	10.
Sept. 6th	Mr. Isaac Stern.....	175.
Dec. 29th	Mr. Albert Stern.....	250.

1905.

Feb. 13th	Mr. William Rogowsky.....	25.
April 9th	Mrs. Henrietta Stermberger.....	10.

The sincere thanks of our Board are herewith gratefully extended to the kind donors.

SPECIAL DEDICATIONS.

I take great pleasure in stating that in May 1905 our friend Mr. Murry Guggenheim, with the object of offering an inducement to the pupils of our Training School to attain the

highest possible proficiency, deposited with the Mount Sinai Hospital 172 shares of the preferred stock of the American Smelting & Refining Co. as a trust fund, the income thereof to be turned over to the Mt. Sinai Training School for Nurses, to be applied to the maintenance of twelve scholarships of \$100. each, six of which are to be assigned annually to first-year pupils, three to the second year and three to the third year. These Scholarships are to be awarded at the graduation exercises taking place in May of each year, with a medal for each graduating nurse securing one or more scholarships.

This example of unselfish generosity set by Mr. Guggenheim will have a moral effect almost as great as the material benefits that will surely accrue from this munificent gift.

Our Institution also received from Mr. Eugene Meyer Jr. twenty shares of American Smelting & Refining Co. preferred stock, to the creation of a fund, the income of which is to be devoted to the establishment of a reference library for the use of nurses. This library has since been established and has proved to be of great value and benefit. The thanks of our Board are herewith gratefully extended to Mr. Eugene Meyer Jr. for his thoughtfulness and generosity.

Donations have been received during the period covered by this report from:

Mr. A. W. Scholle, revolving bookcase.

Mrs. Einstein, bric-a-brac, etc.

Mrs. Kalman Haas, etchings, books and magazines.

Mrs. James Stillman, books.

These donations have been accepted with the sincere thanks of our Board.

Our Directors Messrs. Max Nathan and Isaac Stern have during the past years shown their kindness to our nurses by furnishing them on several occasions with flowers and ice-cream.

We also wish to extend thanks to Mr. Charles Thorley for plants, flowers and decorations furnished for the graduation exercises.

The Board of Directors record with sorrow the deaths during the past two years of the following Members :

J. B. BLOOMINGDALE,	ISAIAH JOSEPHI,

On January 9th, 1905, the death of our colleague, Mr. Simon Rothschild, being announced, the following minute was unanimously adopted :

"The Directors of the Mount Sinai Training School for Nurses, assembled in special meeting on Monday January 9th, 1905 upon the announcement of the death of Simon Rothschild have made minute of their sentiment on the sad occasion which called them together.

'Deeply appreciative of the noble impulses and philanthropic work of our beloved co-director Simon Rothschild, the Directors desire herewith to express their deep sorrow on his sudden demise.

WHEREAS the deceased has, by his charitable deeds and by his benevolent disposition and broad philanthropy, won an enviable recognition in the community, and

WHEREAS we are keenly appreciative of the noble impulse which always inspired him in his endeavors to advance the cause of this institution, be it

Resolved that these resolutions be published; that a copy thereof be sent to the family, and that the Directors in a body attend the obsequies of their lamented colleague."

RESIGNATIONS.

Our Board has been deprived of the services of Mr. Walter E. Beer, who resigned last year after a long and valuable membership. I wish to express in the warmest manner possible our recognition of his conscientious, intelligent work as a Director and of his zeal and ardor as a friend of our institution. His constant efforts on behalf of the Mt. Sinai Training School for Nurses deserve the thanks not alone of his co-Directors, but of every member of this Institution, the interests of which he so well and so constantly guarded.

Messrs. Edward J. Deitsch and Henry R. Ickelheimer also resigned during the past year on account of pressure of business. As faithful co-workers for the benefit of the Mt. Sinai Training School I thank them on behalf of the Directors and Members, for the valuable services they have rendered to our School.

These vacancies have been filled by the appointments of Messrs. Edward Schafer, Samuel Eiseman and Henry Untermeyer. Messrs. Henry L. Calman and M. Samuel Stern have also been appointed Directors to fill vacancies which have existed in our Board for several years. These gentlemen have since their appointment shown a warm interest in the welfare of the School and have proved active and zealous in the discharge of their respective duties.

MEDICAL BOARD.

The medical Board of the Mt. Sinai Training School consists of Dr. N. E. Brill as Chairman and Drs. A. G. Gerster and Henry Koplik, who have during the past two years greatly assisted the Directors in the supervision of the School, and who have been untiring in their labors in superintending the course of instruction and looking after the physical welfare of our nurses. The sincere thanks of the Board are herewith extended to these gentlemen for their conscientious devotion to our Institution.

Lectures were delivered to our pupils by the following physicians: Drs. A. G. Gerster, Howard Lilienthal, Joseph Brettauer, Emil Gruening, Julius Rudisch, N. E. Brill, Alfred Meyer, Morris Manges, Henry Koplik, B. Sachs, S. Lustgarten, B. D. Delavan, A. A. Berg, Charles A. Elsberg, E. Libman, Henry Heiman, H. W. Berg, D. H. Davison and S. S. Goldwater. We are under many obligations to these gentlemen for their kindness in devoting so much of their valuable time to the education of our nurses, and we thank them for their services in this direction.

ADMINISTRATIVE DEPARTMENT.

The records of the Administrative Department of the Training School show a number of changes during the past year. Mrs. M. F. Dean, Superintendent of the School for a number of years, resigned her position as did the Assistant Superintendent, Miss Anna Lough. This department has since been conducted most ably by Miss Anne Dravo Van Kirk as Superintendent, Miss Lydia E. Anderson, Associate Superintendent and Miss Mable Fletcher, Night Superintendent. This staff is materially assisted by the supervisors of the various pavilions and of the operating rooms of the Hospital.

Miss Van Kirk, who took office on July 1st, 1905, is a graduate of the Presbyterian Hospital Training School and has been identified with other institutions in an executive capacity. Miss Van Kirk has done much to make the School a real home for the nurses during the years of their training, and has also been instrumental in many other ways in elevating the standard of our Institution. The Directors thank her, as well as her associates on the Administrative Staff, for their conscientious devotion to the best interests of the School.

I deem it a pleasant duty to make mention to-night of the fact that this year marks an epoch in the history of our Institution. Twenty-five years ago the Training School was founded by:

MRS. FLORIAN H. FLORANCE, MRS. SOLOMON LOEB,
MRS. HENRIETTA BETTMAN, MRS. MOSES H. MOSES,
MRS. CHARLES HENDRICKS, MRS. EDWARD LAUTERBACH,
MRS. LEWIS M. HORNTAL, MISS ELLA SALOMON,

These ladies, who fostered our institution in its infancy, deserve credit for the noble impulse which prompted them to bring into life an institution which has since so materially expanded. I am particularly pleased that some of these ladies continue to take an active interest in the welfare of the Institution, which is evidenced by the presence of some of them on this occasion.

In concluding my remarks I wish to express the thanks of the Directors of the Institution to those friends who have in so many different ways shown their interest in our School during the past two years, and to voice the hope that they will continue to aid us in carrying on its valuable work.

KALMAN HAAS
President.

REPORT OF THE SUPERINTENDENT

To the Board of Directors of the Mount Sinai

Training School for nurses.

GENTLEMEN:—I have the honor to present to you the Annual Report of the Training School.

There are but few schools for nurses that can look back over a longer or more satisfactory history. Since the opening of the school, 25 years ago, it has graduated 481 nurses, to whose efficiency is due the high position which it now holds.

The number of nurses in the school at present is as follows:

The class of 1906, numbers 16.

The class of 1907 numbers 25.

The class of 1908 numbers 41.

Fourteen probationers have already been accepted for the class of 1909, and there are now fifteen probationers in the school.

There have been 565 applications for admission during the past year.

The great increase in the service of the Hospital necessitated a corresponding increase in the number of pupils. This accession of numbers has made the year one of grave problems, as the relative number of those able to fill any responsible position has been so small compared with the large amount of completely untrained material.

At the beginning of the year, in order to increase the nursing force, a number of graduate nurses were employed in the private wards. Gradually the remuneration of these graduates was lessened, as the larger opportunities of service in childrens' wards and operating room were opened to them, and a post grad-

uate course of four months duration was established. At present there are twelve nurses taking the course, only three of whom are paid, the other nine being glad to have the opportunity of receiving so large and varied experience.

In November the school received its great acquisition, when into its hands was given the management of the Operating Room.

We would here like to acknowledge with grateful appreciation the co-operation and wonderful help the Surgeons have given to us in making this change, and without which it would have been impossible for us so soon to have made the necessary adjustment.

The position of Supervisor of the Operating Room has been most acceptably filled by one of our own graduates, and the pupil nurses now receive the admirable opportunities for experience open to them.

The nurses receive their obstetrical training at Sloane Maternity Hospital, and this year arrangements have been made to keep two additional nurses there, in order to meet the demands of the growth of the school.

We keep one nurse engaged in district service, and we hope this is but the nucleus of a growing work, which may be of help to the community and which is of utmost value to the nurses in teaching them how to work with few facilities, as well as cultivating in them a philanthropic spirit.

We are also looking forward to the time when the immense opportunities of our crowded Dispensary may help to increase the efficiency of our nurses, as we believe the help they may render will make the work done there, correspondingly more efficient.

To make this possible would necessitate having a capable Supervising Nurse, able to train the pupils under her care.

There have been no material changes made as yet in the course of instruction, though some effort has been made to place more of the theoretical work somewhat earlier in the training.

The preliminary work and courses under paid instruction, given in so many of our large hospitals, have not as yet been practicable with us.

This year the School has been made the grateful recipient of a fund to be used in procuring a Reference Library. About one hundred books have already been obtained and these have been placed in the Class Room where they are freely accessible to the pupils at all times. This has been of inestimable help in the work of instruction.

Our general library has been largely increased by new books of fiction and current periodicals.

To the friends who have given these books, and to all others who have helped the school by contributing to its improvement or entertainment we would express our sincere thanks and appreciation.

Respectfully submitted,
ANNE D. VAN KIRK
Superintendent.

Information for the Admission of Pupils

THE MOUNT SINAI TRAINING SCHOOL.

The Mount Sinai Training School for Nurses, established in 1881, and now in its twenty-fifth year, offers a course of instruction to women desirous of learning the art of caring for the sick. The school building is a separate structure within the grounds of the Mount Sinai Hospital, Fifth and Madison Avenues, 100th and 101st Streets, New York City. The rooms for the nurses are comfortable, well heated, lighted and ventilated, and the building is modern in all its appointments.

THE HOSPITAL.

The Mount Sinai Hospital affords exceptional advantages for the education of nurses. The new buildings having been but recently erected, embrace the most modern and improved features of hospital construction. The equipment of the hospital, and the means furnished for the care and treatment of the sick, are second to none in the metropolis. It is one of the largest hospitals in the city and contains 490 beds devoted to the sick. Its service is varied, having general medical, surgical and children's wards in addition to special wards devoted to the care of patients suffering with gynecological, dermatological, neurological, ophthalmic, aural and genito-urinary diseases. It embraces a private pavilion and a large dispensary, thus offering unequalled opportunities for thorough practical experience in all forms of nursing. By arrangement with the trustees of the Sloane Maternity Hospital, the pupils of Mount Sinai Training School receive a three months' course in obstetrics in that famous institution. The opportunity of district nursing is granted to a limited number who desire that experience.

REQUIREMENTS FOR ADMISSION.

Candidates wishing to enter the school must apply personally or by letter to the Superintendent of Nurses. Those applying by letter should give a personal history, enclose a statement from some responsible person testifying to good moral character,

and one from a physician certifying to sound health and unimpaired faculties.

Applicants must be between twenty-one and thirty-three years of age. They must have a thorough English education, and women of superior education and cultivation will be preferred.

TERM OF PROBATION.

If approved, applicants are summoned for a term of two months' probation. It is necessary that they come provided with sufficient means to enable them to return home, in case they are not suited to the work. The Superintendent decides as to their fitness for the work and the propriety of retaining or dismissing them during or at the end of their term of probation. If the record of the pupil should prove unsatisfactory during the first six months, her connection with the school may be terminated by the Superintendent. At any subsequent time the Board of Directors may dismiss a pupil upon recommendation of the Committee on Nurses and Instruction.

At the end of the probationary period of two months if accepted as pupils, nurses must sign an agreement to remain in the School, and subject themselves to the rules of the School for the full term of three years from the commencement of their term, unless sooner dismissed by the Board.

ALLOWANCE FOR EXPENSES.

The pupils receive board, lodging and laundry from the date of entrance. After the probation term of two months is completed, they receive \$8.00 per month for the first year, \$12.00 per month for the second year, and \$15.00 per month for the third year. This allowance is made to enable the pupils to pay for uniforms, text-books and stationery.

HOURS ON AND OFF DUTY.

The pupils act as assistants in the various departments of the Hospital, and are expected to perform any duties assigned to them by the Superintendent of the Training School. The day nurses come on duty at seven in the morning and stay until relieved by the night nurses, who come on duty at seven in the evening.

Unless urgently required in the wards, owing to unusual

demands of the service, nurses may have one or two hours each day for study, rest or recreation, besides the regular intermission for meals. Pupils are granted leave of absence one afternoon in each week and at least three hours off duty on Sunday. All nurses are subject to emergency call day or night.

VACATION.

A period of three weeks is allowed each pupil at or near the end of her first and second years. These vacations are planned as far as possible to occur between the first of June and the last of September, and occasionally during the Christmas recess, in order that the course of studies may not be interrupted.

SICKNESS.

In sickness all pupils are cared for in the Mount Sinai Hospital by one of the Attending Physicians appointed for the Training School by the Board of Directors. Leave of absence will be granted only for extreme cause, and pupils will not be allowed during their course to nurse sick relatives at home. All time lost through illness or absence must be made up. Through the generosity of one of the Directors of the Hospital, a room has been endowed in the hospital where graduate nurses receive medical care and attention free of charge.

INSTRUCTION.

The course of instruction covers a period of three full years. The students are constantly engaged in practical work in the wards, under the supervision of the Superintendent and her assistants. Regular courses of lectures by Attending Physicians and Surgeons, recitations and demonstrations are given throughout the three years.

THE JUNIOR YEAR.

The first two months of this year constitute the probation term, and this time is spent largely in the wards under the direct instruction and supervision of the Superintendent and her assistants. Classes and demonstrations are held in which the pupil is instructed as to what are the essential qualifications of a nurse, and in the simpler practical part of nursing, so that she may become familiar with the various appliances and utensils used in

caring for the sick. The time spent in the wards is under special supervision as to the manner in which the pupil follows the instruction received in demonstrations, and as to her general fitness of disposition and temperament for the work of nursing. At the end of the two months an examination is held covering the instruction during that period. If this examination is passed successfully and the pupil's work and personality have been satisfactory, she dons her uniform and cap, and becomes an accepted student in the School. During the remainder of the year the pupil has bedside clinics weekly, in which she is taught the practice of nursing. In a series of classes a careful study is made of the physiological action and effect of drugs, of proper methods of administering and of the effects of poisons and their antidotes. These classes are followed by another series taking up the Principles and the Ethics of nursing.

THE INTERMEDIATE YEAR.

The practical work of the Intermediate Year is a continuation of that of the Junior Year, and instruction is given in the men's and women's medical and surgical, in the gynecological and children's wards. The theoretical work consists of a course in Anatomy and Physiology. The lectures and recitations include a study of the structure and development of the human body, a further study of the physiology of digestion, circulation, respiration and the special senses. While necessarily limited, the course is thorough as far as it goes and is given by a Physician who has made the subject a specialty.

THE SENIOR YEAR.

The practical work of the Senior Year includes obstetrics, diseases of the special senses, operating room work, and the experience gained by head-nurseship in the various wards. Dietetics and massage are taught both theoretically and practically in this year.

EXAMINATIONS.

Examinations are held at the close of the courses of instruction in the various subjects. These examinations, which are both written and oral, include practical tests, and the standing of the

student is based upon the general character of her work throughout the year, as well as upon the results of the examinations. Students must pass on all subjects before entering upon the work of the following year.

GRADUATION.

The diploma of the School will be awarded to those who have completed satisfactorily the full term of three years, and have passed successfully the final examinations. A diploma is also awarded by the Sloane Maternity Hospital for the three months obstetrical course.

SCHOLARSHIPS.

The Murry Guggenheim Scholarship Fund provides twelve scholarships of the value of \$100.00 each. These scholarships are awarded at the close of every school year to the six members of the Junior, three of the Intermediate, and three of the Senior classes, who have shown exceptional merit in all branches of the work. It is thus possible for one nurse to obtain the scholarships of the three successive years.

LIBRARY.

There has been donated to the Nurses' Pavilion a library of works of standard authors. To this the nurses have access on stated days. In addition to the above there is a valuable reference library given and endowed by a friend of the Training School. This contains books which supplement the class work and enable any pupil to pursue advanced study while in the School. Magazines and papers supply general information and keep the nurses interested in current events.

REGISTRY.

The Training School maintains a registry for the graduate nurses of the Mount Sinai Hospital. There has been a steady increase in the number of calls for Mount Sinai graduates. In the year 1904 there were 1,303 calls, an increase of 119 over the previous year.

The School being non-sectarian, there are no religious services connected with it. All the pupils are expected to attend the place of worship which they prefer.
